

## Postdoctoral position at University of Pau (South west of France)

We are opening a **one year** postdoctoral position at the University of Pau and Pays de l'Adour (UPPA):

<https://lma-umr5142.univ-pau.fr/en/home.html>

with a starting date between **september** and **december 2023**.

The position is financed by the ANR–FAPESP PRCI project "BRIDGES-Brazil-France interplays in Gauge Theory, extremal structures and stability» :

<http://math.univ-lyon1.fr/~legendre/grants.html>

This is a research-only position, with no expected teaching or admin duties.

The salary is about 2500€/month (slightly above 2000€ after tax) ; this sum will be completed with approximately 2000 € per year for professional travels.

The postdoctoral researcher will interact mainly with Jean Vallès, The topic of the postdoctoral position will concern the algebro-geometric part of the project, more particularly the study of hypersurfaces arrangements and their logarithmic sheaves.

### Application procedure:

1. Send an e-mail to [jean.valles@univ-pau.fr](mailto:jean.valles@univ-pau.fr) containing :

CV + list of publications;

a (short) research project;

at most two recommendation letters to be sent directly by the authors to [jean.valles@univ-pau.fr](mailto:jean.valles@univ-pau.fr) including one from the former PhD supervisor.

**Deadline for application:** May 31, 2023.

**Results:** June 30, 2023.
